

Research Presentation A

Presentation Evaluation Criteria

1. Content and Organization

- i) Overall key points/message
- ii) Organization/cohesiveness (eg. clear stages, use of connectives)
- iii) Audience awareness (eg. level of difficulty/interest)

2. Delivery (eg. speed/timing/body language)

- i) Speech speed
- ii) Pausing
- iii) Audibility (ie. could the speaker be heard?)
- iv) Eye-contact (ie. looking at the audience or camera)
- v) Body language (including gestures, stance, and pointer use)
- vi) Time management
- vii) Pronunciation and vocal variety (eg. intonation, stress)

3. Visuals (eg. PowerPoint slides)

- i) Overall key points/message
- ii) Amount of text
- iii) Amount of images/figures etc.
- iv) Mistakes (eg. spelling)
- v) Layout/formatting
- vi) Visibility (ie. images/writing/[online] presenter's face clearly visible)
- vii) Technical issues (eg. slides freezing/loss of battery power)
